**Save the children!!!**

## **Abortion—Leading cause of death in 2020 & 2021**

- Abortion Was the Leading Cause of Death Worldwide in 2021, Killing 42.6 Million Babies
- Statistics compiled by Worldometers indicate that there were over 42.6 million abortions world-wide in 2021.
- By contrast, 8.7 million people died from cancer in 2020, 5 million from smoking, 13 million from disease, and 1.7 million died of HIV/AIDS.

• ***That means abortions accounted for 42% of every death around the world last year.***

In America, just under 1 million babies are aborted every year. Though abortion rates have been dropping in the past decade, abortion remains the leading cause of death in the United States as well.

**Beginning at 12:00 noon**

**305 Main Street—Klamath County Government Center**

*God loves each human life from the instant of his or her conception and entrusts this gift to the protection of a mother and father. Abortion ends the life of a child and offends God. It also deeply wounds the women and men involved.*
